

UNIVERSITÀ
DEGLI STUDI
DI MILANO

Symposium on Renal Pathology

Ranica, May 8th-11th, 2017

*Clinical Research Centre for Rare Diseases “Aldo e Cele Daccò”
Mario Negri Institute for the Pharmacological Research*

Program

Monday, 8 May

08.00 – 08.30 Registration and Welcome coffee

08.30 – 08.45 Welcome and introduction

Giuseppe Remuzzi, Italy

08.45 – 09.30 Glomerular pathophysiology and systematic analysis of a renal biopsy

Jan Weening, Holland

09.30 – 10.15 New insights in the pathogenesis of nephrotic syndrome: the role of glomerular epithelium

Paola Romagnani, Italy

10.15 – 11.00 Minimal change disease and focal segmental glomerulosclerosis: an update

Vivette D. D'Agati, USA

11.00 – 11.30 Coffee/Tea Break

11.30 – 12.15 Autoimmunity and renal disorders

Renato Alberto Sinico, Italy

12.15 – 13.00 Pathology of membranous nephropathy

Agnes B. Fogo, USA

13.00 – 14.00 Lunch

14.00 – 14.45 The complement system in hemolytic uremic syndrome and complement mediated glomerulopathies

Marina Noris, Italy

14.45 – 15.30 Membranoproliferative glomerulonephritis and C3 glomerulopathies:

toward a consensus

Giuseppe Remuzzi, Italy

15.30 – 16.10 Pathology of IgA nephropathy

Manuela Nebuloni, Italy

16.10 – 16.40 Coffee/Tea Break

16.40 – 17.10 History of renal pathology, from Malpighi to Bergamo

Jan Weening, Holland

17.10 – 18.00 Discussion

Tuesday, 9 May

09.00 – 09.45 Current insights in the pathogenesis of lupus nephritis

Renato Alberto Sinico, Italy

09.45 – 10.30 Classification of lupus nephritis: an update

Jan Weening, Holland

10.30 – 11.15 The antiphospholipid antibody syndrome

Pierluigi Meroni, Italy

11.15 – 11.45 Coffee/Tea Break

11.45 – 12.30 Pathology of rapidly progressive glomerulonephritis

Tullio Bertani, Italy

12.30 – 13.15 The genetics of ANCA-associated vasculitis

Federico Alberici, Italy

13.15 – 14.30 Lunch

14.30 – 15.15 Pathology of Infection-related glomerulonephritis
Roberto Nicosia, USA

15.15 – 16.00 *Challenging clinical cases, Part 1*

16.00 – 16.30 Coffee/Tea Break

16.00 – 18.00 *Renal pathology Laboratory (Microscope Section)*

Wednesday, 10 May

09.00 – 09.45 Glomerular disease and cancer: evaluation of the underlying malignancy
Maurizio Gallieni, Italy

09.45 – 10.30 Fibrillary, Immuntactoid, Cryoglobulinemic and HCV-associated glomerulonephritis
Charles E. Alpers, USA

10.30 – 11.15 Assessing renal response in AL amyloidosis
Giampaolo Merlini, Italy

11.15 – 11.45 Coffee/Tea Break

11.45 – 12.30 Light chain proximal tubulopathy: new insights
Vivette D. D'Agati, USA

12.30 – 13.15 Value of electron microscopy in the diagnosis of renal disease caused by monoclonal gammopathy
Roberto Nicosia, USA

13.15 – 14.15 Lunch

14.15 – 15.00 Hereditary nephropathies: genetics and clinical implications
Giovanni Montini, Italy

15.00 – 15.45 Pathology of hereditary nephropathies
Agnes B. Fogo, USA

15.45 – 16.15 Coffee/Tea Break

16.15 – 17.00 Discussion

17.00 – 18.00 *Challenging clinical cases, Part 2*

Thursday, 11 May

09.00 – 09.45 Diabetic nephropathy: where we are today
Piero Ruggenenti, Italy

09.45 – 10.30 Pathology of diabetic nephropathy
Charles E. Alpers, USA

10.30 – 11.15 Chronic allograft dysfunction and recurrent diseases after renal transplantation
Piergiorgio Messa, Italy

11.15 – 11.45 Coffee/Tea Break

11.45 – 12.30 Pathology of renal transplantation and Banff classification: an update
Tullio Bertani, Italy

12.30 – 13.15 Discussion

13.15 - 14.15 Lunch

14.15 – 15.00 Novel biomarkers in renal diseases

Ariela Benigni, Italy

15.00 – 15.30 Concluding Remarks

Giuseppe Remuzzi, Italy

15.30 – 16.00 Coffee/Tea Break

16.00 – 17.45 *Renal pathology Laboratory (Microscope Section)*

17.45 - 18.00 Collection of completed ECM documentation
